We would love to go in to Europe but don't know where to start

That's why you should talk to us. We are with you every step of the way. Face to face planning to making sure your event looks as you imagined it would. Don't know where to start? Lets arrange a meeting to go through an initial action plan for the project.

Why Choose You Over a larger international company?

We have had personal experience of the live event industry for over 15 years. Throughout that time we have managed events in every major city in Europe, Scandinavia and Russia. We have met and worked extensively with the people in Europe that can deliver your project. Many of these professionals we call friends, they know what is important to get the event looking right. For us its all about service, there is no pushing from out of office email to out of office email. We take everything personally and treat your show as a personal reflection of our service.

How can you make our event stand out?

We have experienced every major city in Europe, the people we have worked with are Industry leaders in making events look good, sound good and give the best impressions to clients and their delegates. We can also offer a personal insight in to places to visit in the downtime so people remember your event even away from the venue.

We just need someone locally to talk to

We can help. We offer a day to day insight consultation and can be on the end of the phone for you. We can also offer an annual retention service for your events and can specifically use the time consulting in the USA or project managing internationally .

How much can you do for us?

As much as you want us to. From an initial insight consultation, to full planning and vendor procurement to on site production management. We have access to all the resources your event needs.
